

SUZAN QUILTS... Dresden Home Day 8

Tiny Dresden Half Plate Transom

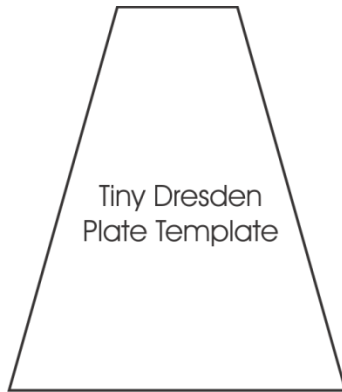

Cutting

Grey fabric

Cut 1 strip 2" x 8".

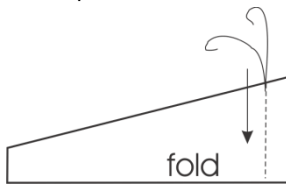

Cut 6 Tiny Dresden petals with template below, or use or use Suzan Quilts' Tiny Dresden template #216.

Rotate template on the strip to cut the petals.

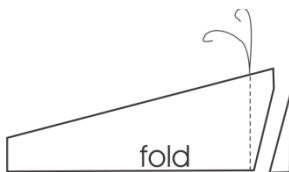

Sew The Tiny Dresden Petals

Fold each petal in half, right sides together as shown below then stitch, with small stitches, toward the fold. Chain stitch petals to save thread & time.

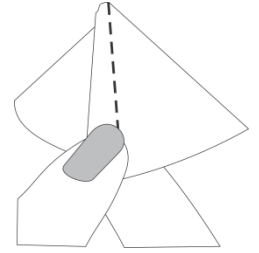

Trim seam allowance away at point.

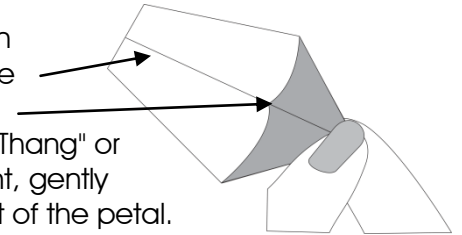

Press the seam flat as sewn then press the entire fold to make crease for aligning purposes later. The Mighty Steam Iron is a great light-weight iron for this task!

While holding the seam allowance to one side, turn the petal right-side-out.

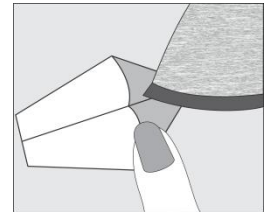

Once turned, align the pressed crease with the seam. Using "That Purple Thang" or another blunt point, gently poke out the point of the petal.

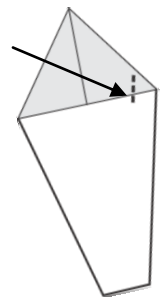

Still aligning the fold line and the seam, finger press the point between your thumbnail and index finger a couple of times until it is flat. This will set the seam.

Keeping the seam aligned with the pressed crease, press with iron. Press out the crease now too.

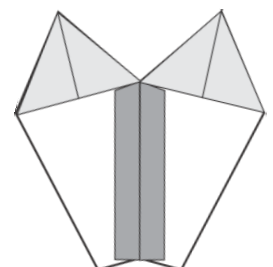

Make The Tiny Dresden Half Plate

Sew together 2 petals, starting 3 stitches from edge, backstitch to edge, then sew the entire seam to avoid thread tails on outer edge of plate.

Press each seam flat as sewn, then press it open as shown.

Don't trim these seams!

Measure for accuracy by laying pairs of petals over illustration at right to be sure you are sewing accurate scant 1/4" seams.

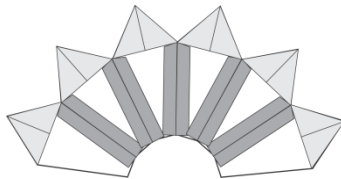

If your petal units are larger, your seam allowance is too small. If your petal units are smaller your seam allowance is too big.

When your seam allowance is just right, sew pairs of petals together. Press again.

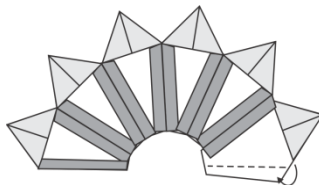

Sew another pair of petals on to complete a half plate. Give final press with Mary Ellen's Best Press.

Make 1 half plate.

Press under seam allowances on both petals as shown then glue in place.

Make & Appliqué The Tiny Dresden Half Plate Center

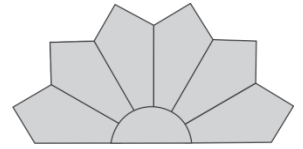

Using the template below, cut 1 half 1" circle from freezer paper. (Do not add seam allowance).

Press wax side of half circle template to wrong side of grey fabric.

Cut out half circle with 1/4" seam allowance. With Roxanne™ or other fabric glue, glue seam allowance to paper side of template. Appliqué Bars make this task much easier!

Align 1" half circle on the half Tiny Dresden plate, gluing edge only to the plate as shown at right.

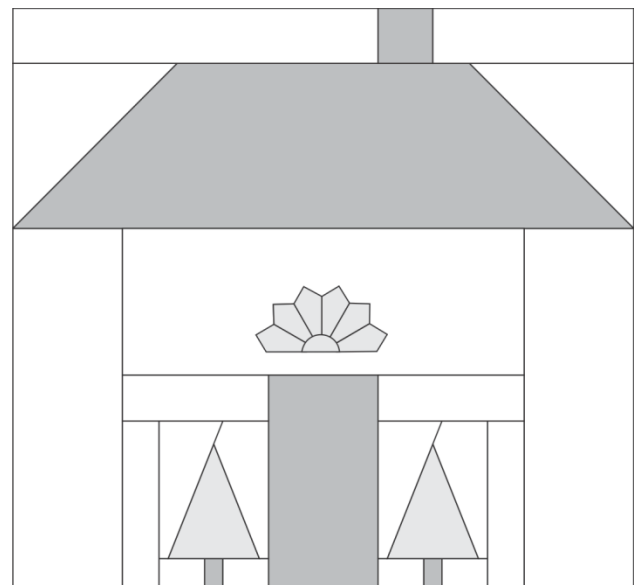

Appliqué the center half circle to the plate using thread matching the center half circle fabric with same stitch used on full Dresden plate earlier.

Dampen the center half circle with a clean washcloth so as not to also dampen the glued seam allowances on the petals. Let it rest a few minutes then remove the paper template. A slight pull diagonally on the plate will release the paper. Let the half plate dry, then press it again with Mary Ellen's Best Press.

Pressing wet blocks will distort them!

Center, then glue the half Dresden plate approx. 3/4" above the door as shown below.

Appliqué The Tiny Dresden Half Plate

Appliqué the Tiny Dresden half plate the same way the center was stitched with thread matching to petals. Don't trim away the backing, it adds stability.
